a similar establishment
for Kolar Gold Fields is urgently
needed.

On the appointment of a Health
Officer for the Kolar Gold Fields
the post of San'y Inspector was
abolished* and the establishment
consisting of asst San'y Inspector
San'y overseers, Messins, rent-
collectors etc is available for duty
under the Health Officer. and there
also the office establishment of 4 clerks
who attend to the preparation of
accounts etc, working under the
Vice President S-o the necessity
for the proposed staff is not
apparent.

(D 2072) Submits a proposition statement showing the establishment required for duty under the Health Office

9 It is stated that the work now devolving on the new Health office was

formerly done partly in the office of the St Medical and Sanitary Officer & partly in the Sanitary Board office. The establishment under the medical officer has been lately abolished and the President states that it is not possible to reduce the establishment of the Sanitary Board office which may have to be strengthened to cope with the additional work. It is also stated that the posts of the 2 clerks now proposed to be appointed will provide for a regular gradation of posts between the Sanitary Board and the Health offices, facilitating mutual transfers and promotions from one office to another.

or Rs 1284 per mensem
and the cost for the current
year is proposed to be met
from the provision made
for the pay of the Sanitary
Inspector.

11) In LPS File no. 405-07
relating to the local allowance
to the market Sergeant, the
financial Asst Secretary has
noted that the allowance
granted to the servant of
the Sanitary Board, which
is in excess of the sanctioned
scale, should be reduced to
the level sanctioned in G.O
no. 2116-58 d 9th June 1903.

12) Submitted for orders
Rs 24 of the proposal were
24/9/08 to be sanctioned, Branch

II will have to be con-
sulted as the cost will be a
permanent addition to the
budgeted expenditure of the
Sanitary Board. The financial
condition of the Sanitary Board

Serial No.	is noted below: —
	Opening balance Rs 24,470
	Estimated receipts 74300
	Total 98770
	1) Expenditure 81341
	2) Closing balance Rs 17,429
2726/9	13) The Establishment pro- posed for the Health Office seems necessary. The number of hands is fewer than the number sanctioned for the Health Offices in Bangalore and Mysore but in order to secure ~~more~~ competent men it is proposed to give them better pay. ~~See~~ Further as stated by the President, the proposed scale of pay provides for a regular gradation of posts in the offices of the Sanitary Board and the Health Officer -
	14) As regards the allowance proposed, ~~the same as~~ the amount is ^{the same as} ~~only~~ what the officials in the San. Board are already drawn

Serial
No.

It is not known if there are any special reasons for giving these officials allowance at a higher rate than that sanctioned in the order dated 9th June 1903. Branch II has already raised the question of reducing their allowance. The question of the allowance to the hands proposed to be appointed may be reserved for the present and separate orders passed after consulting the Sanr Board as to why the allowances of the officials should not be reduced.

- 1) Has the Grant been allowed to the Rly Health Officer been already sanctioned in the Health Scheme order or is this a fresh proposal

altogether.

- 2) If it is a ^{fact} proposal, it may kindly be stated how the charge of the Feroz H.O. compares with the charge of H.O.s of Bangalore & Mysore, in point of area committed to their charge, the quantity of work reqd of them & any other matters within the knowledge of the Administrative Dept to make the comparison complete. The object is to see if the requirements of the Feroz H.O. in respect of ^{clerical} staff are the same as those of the H.O.s of Bangalore & Mysore. As a matter of fact however the proposed staff for the Feroz H.O. is more bulky than that of the Bangalore H.O.
- 3) Information is also requested as to whether

Serial
No.

The deficit in the Current year
Budget (a copy of which
may be put up for ref.)
is due to any special features
of that year's Estimates or
whether it represents
roughly the normal
position. In the latter
case it may be stated
~~as~~ how the imposition of
additional extra-expenditure
is recommended. It
may also be considered
if it is not feasible
to think of some arrangement
which would give the
needed help to the H.O.
from the existing staff
itself. This is suggested
in view of the financial
position, which, if
the Budget figures are
fairly normal does
not permit of further
addition to expenditure

In the Health Scheme order of August 1907 no mention is made of the clerical establishment required for duty under the Health officers of Bangalore, Mysore or the Nolar Gold Fields and hence the present proposal is a fresh one, as in the case of ^{the other two} Health officers.

Although the establishment proposed for the Health officer

if 2 is short by one hand, yet the cost comes to Rs 107 per mensem ^{excess} the pay & allowance proposed to the clerks (5 Rs in pay - 10 Rs allowance) accounting for the increase.

The Health officers ^{of the two cities} are in charge of the conservancy.

The area and population of the 3 places for which health officers have been appointed are noted below: —

A copy of the budget of the Sanitary Board for 1908-9 is sent up. The deficit in the current year's budget is not due to any special features of the year's estimates but it roughly represents the normal position.

Serial
No.

Though the estimated expenditure is more the actuals ^{may, as in previous years} fall short of the receipts owing to lapses in the budget provisions. The expenditure during 1907-8 was more as the drainage, electric lighting and water supply schemes were sanctioned last year.

The recurring expenditure of about Rs 1000 & odd required for meeting the cost of establishment of the Health Officer may be met from the savings ^{effected by} the abolition of the Sanitary Inspector's post carrying a salary of Rs 220 per mensem, for which there is provision in the current year's budget.

The President who was requested ^{to state} whether the existing establishment can not be deputed for work under the Health Officer has clearly stated that the work now devolving on the new Health Office was formerly being done by the Plague establishment which has since

Serial
No.

been abolished & by the estab-
lishment of the Sanitary Board
office, which requires being strengthened
on account of the increasing work
therein and that the proposed
establishment for the Health
officer is absolutely necessary.

condition to bear large

At the same time, a

Health Officer having been
appointed, an Estab. for
working under him is
necessary. The expenditure

on the proposed Estab. has,
in the circumstances, to be
limited to the minimum
requirements.

20) The following Staff

is called for:-

1. allowance on Rs 30 + 10

2. do on Rs 25 + 10

3. Daffadar on Rs 12

4. Two peons on Rs 10 each.

There are now 4 peons in the
Staff of the Conservancy and
Sanitary Dept of the Sanitary
Bd and further addition to
that no is uncalled for. The
peons are apparently available
for office work as there can
be no other work in the Dept
for which their services may
be required. For the executive
work of the Dept there is the
Staff consisting of 92 to be
1 mestries, 4 Sanitary
overseers & 1 ^{Asst} Sanitary Inspector.
It should therefore be quite
possible to use the services of
the existing 4 peons for
the work of the Health
Officer's Office and items
no 4 in the above ^{list} should
be disallowed

21) The rate of pay per

for the two clerks is in excess of that allowed to similar officers in the Staff of the Health Officer of the Bangalore & Mysore City Municipalities and there is no reason why the higher rate should be allowed. It may be that living in the Kolar hills may be more expensive but compensation for such expensive living is the local allowance payable under the rules. Standing orders. So far as pay proper is concerned the same rates as are given in Mysore and Bangalore have to be allowed. As for the local allowance, it has already been pointed out that it should not exceed what is payable under the orders of 9th June 1903. The additional Staff as thus revised

Maharaja of Mysore, Genl. and Rev. Depts.

Sir,

With reference to your Office docket No.661/L.B.27-08-2 dated the 21st July 1908, anent the proposed establishment for the new Health Office on the Kolar Gold Fields, I have the honor to submit herewith a copy of the Board's Resolution passed at their Meeting held on 11th instant together with a Proposition Statement No.I showing the establishment required for the said Office, and to state as follows:-

2. The work now devolving on the new Health Office was formerly being done partly in the Office of the District Medical and Sanitary Officer, Kolar Gold Fields, who had been given from the commencement till recently, a Plague Clerk on Rs.25+10 and three Clerical Plague constables on 11 Rs. each, costing in all Rs. 816. per annum, paid from the Provincial funds, and partly in the Sanitary Board Office itself. This Plague Establishment having lately been abolished, there is now no staff for doing the Health Office work.

A large amount of correspondence and various statistics have to be maintained in the Health Office, on matters connected with general sanitation, Plague, Vaccination, Births and Deaths, Market &c., and this work will by no means be either light or easy on this busy vast area. It has therefore been proposed to appoint two clerks, one on Rs.30+10 and another

2.

on Rs. 25+10, or in all Rs. 75 per mensem, instead of three clerks on Rs. 60 as in Bangalore or Mysore City Health Offices, but on slightly higher rates of salary to the said 2 clerks, as here, to get sufficiently capable, qualified and the right sort of men for the work, the salary offered must be sufficiently attractive, Gold Fields being on the average, $1\frac{1}{2}$ times as costly as either of these two Cities.

In the proposed establishment, besides, advantage has been taken of, to provide for a regular gradation of posts between the Sanitary Board and the Health Offices, facilitating mutual transfers and promotions &c. from one Office to another, as per Statement No. II enclosed.

3. As regards the existing staff in the Sanitary Board Office, Statement No. III shows the distribution of work amongst the four hands, and with the introduction of several important urgent reforms on hand, for the exercise of proper check and supervision over the work of the Sanitary Board and the large Cash transactions in particular, it is feared the present Staff may not be able to cope with the increasing work, and may perhaps need to be strengthened. It is therefore left undisturbed for the present, it being impossible to effect any reductions therein.

4. The necessity for the Menial establishment for the Health Officer, needs no remark, as in an Office on such an extensive area as the Kolar Gold Fields, a number of servants is absolutely required for carrying messages, Tapals, Orderly duties &c.

5. I therefore request that you may be so good as to obtain the early sanction of Government for the entertainment of an establishment at a cost of Rs. 1,284 per annum for the Health Office, as per Proposition Statement enclosed, the charges for the current year being met out of the available balance from the sum of Rs. 2,640 provided in the Sanitary Board Budget for

3.

the pay of the Sanitary Inspector who has since been
discharged.

SUBJECT

Sanctions an establish-
ment of two clerks for
duty under the H.O Kolar
Gold Fields

dated 18th December 1907
for the Health Office
at Bangalore.

2) Letter No 367 dated
18th September 1908
from the President of
the Sanitary Board
Colonial Gold Fields
stating that it is
not possible to spare
from the existing establish-
ment a ^{few} hands for
the Health Office since
the temporary establishment
sanctioned for plague
work has been abolished
and the work in the
Sanitary Board Office is

~~also~~ on the increase, ~~and~~
consequently ~~remains~~ the present staff ~~is~~ ^{is} ~~not~~ ^{not} ~~sufficient~~
~~to cope with the work~~ ^{of the office may require}
~~to be increased~~ ^{to be strengthened}

Order thereon No 5500-2

It is observed
that the finances of
the Sanitary Board

are not in a condition to bear a large addition to expenditure. At the same time, a health officer having been appointed, an establishment for working under him is necessary. The expenditure on the proposed establishment has in the circumstance to be limited to the minimum requirement.

The following staff is asked for:

1	One clerk on Rs 30 + 10 ^{allowance}	
2	do do 25 + 10 ^{allowance}	"
3	one Duffadar	12
4	Two Peons on Rs 10 each	20
		<u>107 Rs per</u>
		month.

There are now 4 peons in the establishment of the Conservancy and Sanitary Department of the Sanitary Board and further addition to that number is in called for. These peons

are apparently available
for office work as there
can be ^{no} other work in
the Department for
which their services
may be required. For
the executive work of
the Department, there is
the establishment
consisting of 92 Toties
12 mestries, 4 Sanitary
overseers and 1 asst
San'y Inspector. It
should therefore be
quite possible to use
the services of the
existing 4 persons for
the work of the Health
Officers office, ^{so that} ~~and~~ the
appointment of a
superior and ^{few} persons
recommended ~~cannot~~ appears to be superfluous
therefore be sanctioned.

~~There is~~

the local
allowance payable under
the standing order. So
far as the pay proper
is concerned, the same
rates as are given in
Mysore and Bangalore
bassaris ^{can} be allowed.
Government are
accordingly pleased
to sanction the
entertainment of 2 clerks
on Rs 25 and 20 with
local allowances pay-
able under the Govt
order no 2116-58
dated 9th June 1903,
which will be Rs 2 each
per mensem.

The charge of the
establishment for the
current year may
be met from the pro-
vision of Rs 2640/-
made for meeting the
pay of the Sanitary
Inspector whose post
has since been abolished.
